Hien Phan

UX Design
Web Developer

5705 Friars Rd #26
San Diego, CA 92110

(909) 319 - 0711

hpn337@gmail.com // [Portfolio](#)

Education

University of California, San Diego / B.S. in Cognitive Science

Technical Skills

Front End - HTML / CSS / JavaScript (Vue.js / Angular.js / jQuery)

Back End - PHP (Laravel) / JavaScript (Node.js)

Databases - MySQL / NoSQL (Firestore)

Tools - Composer / npm / Version Control / phpMyAdmin

Other - Adobe Suite / Excel / Sketch / Prototyping / Wireframing

Experience

WorldCraft Logistics / Junior Web Developer
July 2019 - October 2019

- Implemented employee webpages using DataTables (jQuery) to decrease load times, improve search, and edit shipping information.
- Restructured front end (Bootstrap/CSS) and back end (PHP) to improve customer forms.
- Created a new data table in phpMyAdmin and imported data from google sheets to organize warehouse inventory.

Projects

Shopping List / Web Application

- Implemented an application connected to Firebase CLI
- Designed front end using CSS library (Materialize).
- Communicate data using Node.js to add/edit/delete items in addition to user authorization and admin privileges.

Mint Redesign / Design Project

- Researched and designed a new feature in an already existing banking app.
- Focused on user research (surveys and in-person interviews) and high fidelity prototyping.
